Pact training

Pact training

The EUAA provides a set of training modules supporting the implementation of the Pact on Migration and Asylum. These learning products help asylum and reception professionals understand the key legislative changes introduced by the Pact and prepare for their practical application in national systems.

The training is delivered through self-paced online modules, allowing participants to access the content flexibly and develop knowledge at their own pace.

What the training covers

The modules focus on the main elements of the Pact relevant to asylum and reception practitioners, including:

- The asylum procedure under the Pact on Migration and Asylum
- Reception conditions within the Pact framework
- The Asylum and Migration Management Regulation (AMMR)
- Identification and consideration of vulnerability in the Pact context

Pact on Migration and Asylum: key legislative changes

In addition to the specialised modules, this course combines all the four above-listed tailor-made-training together in one training. Learners will have the chance to follow the content of ‘The Asylum Procedure in the Pact on Migration and Asylum’, ‘The Reception Conditions Directive in the Pact on Migration and Asylum’, ‘The new Asylum and Migration Management Regulation (AMMR)’, ‘Vulnerability in the Pact on Migration and Asylum’, in one course.

Together, these training modules support administrations and practitioners in preparing for the implementation of the Pact on Migration and Asylum and in strengthening knowledge of the evolving EU asylum framework.
