Learning outcomes & description

DESCRIPTION

This module aims to provide learners with competences related to the preparation, implementation and finalization of a selection mission.

It covers logistical and case-related activities relevant to perform a selection mission as well as applicable EU legislation and different selection methods which can be applied by EU Member States.

LEARNING OUTCOMES

At the end of this module, the learner will be able to:

Competences

1. **Prepare the relevant activities to carry out a selection mission.**

2. **Prepare the relevant activities to implement a selection mission.**

3. **Prepare the relevant activities to finalise a selection mission.**

DELIVERY METHOD

This module is delivered through a blended learning approach, combining online studies and face-to-face sessions.

The online component focuses on animated content, reading materials, and multiple-choice questions to help learners assess their progress and face-to-face sessions focus on complex topics through case analysis, discussions, and role-playing.

ASSESSMENT STRATEGY

The assessment strategy is based on one assessment conducted at the end of the module.

The assessment is based on open-ended questions and is designed to assess learners' competences related to preparing, implementing and finalizing a selection mission.
