Learning outcomes & description

DESCRIPTION

The aim of the module is to provide learners with the necessary knowledge and skills to detect the indicators suggesting that the responsibility determination procedure under the Asylum and Migration Management Regulation (AMMR) needs to be applied. The module also covers the related referral procedures. In this context, the module aims to introduce the responsibility determination system established under the AMMR, focusing on the responsibility criteria and procedure, and providing analysis on the identification of responsibility indicators. Finally, the module aims to present communication skills for the collection of evidence and provision of information, related to the AMMR.

LEARNING OUTCOMES

At the end of this module, the learner will be able to:

Knowledge

1. **Identify indicators for the application of the Asylum and Migration Management Regulation (AMMR)**

2. **Outline effective communication skills to collect and provide information to applicants in the context of applying the Asylum and Migration Management Regulation (AMMR)**

DELIVERY METHOD

This module is delivered using a blended learning methodology. Part of it is delivered as asynchronous online learning and another part is delivered in a face-to-face or webinar session. The module adopts an interactive approach to ensure the active engagement of learners in the learning process. .
