As the go-to source of information on international protection in Europe, the annual EUAA Asylum Report provides a comprehensive overview of key developments in asylum in Member States of the European Union, Iceland, Liechtenstein, Norway and Switzerland (EU+ countries).

All aspects of the Common European Asylum System (CEAS) are covered by summarising changes to legislation, policy and practices at the European and national levels. The report presents selected case law which has shaped the interpretation of European and national laws, as well as key indicators for the 2022 reference year, which highlight emerging trends and the effectiveness of asylum systems.
