## Learning outcomes & description

### DESCRIPTION

**The aim of this module is to provide learners with knowledge of conflict mediation methods relevant to acute and/or complex issues in reception. The module also equips learners with the knowledge and skills necessary to identify appropriate strategies to mediate, de-escalate and resolve complex conflict situations in reception, such as those occurring with local communities and stakeholders.**

**This module focuses on developing learners' skills to mediate and manage conflicts in reception settings through a blended learning approach. It first introduces key concepts, cultural dimensions, and conflict mediation theories, supported by case-based scenarios to practice culturally sensitive mediation. Learners then explore underlying causes of conflicts and effective strategies to manage acute and complex situations. A face-to-face session consolidates learning through group work, practical exercises, reflection, and feedback, preparing learners for real-life conflict management challenges.**

### LEARNING OUTCOMES

**At the end of this module, the learner will be able to:**

1.  
  
Outline methods to mediate acute and complex conflicts in reception
2. **Identify appropriate strategies to manage acute and complex conflict situations in reception.**
