

Advanced core modules

At the advanced core level, the European Asylum Curriculum offers a specialised module focusing on Inclusion - advanced. This module builds upon the foundational knowledge of inclusion by delving deeper into complex legal and procedural aspects surrounding refugee status and subsidiary protection. It is designed for experienced asylum officers who wish to further refine their decision-making skills in line with European and international standards. Through advanced case studies and in-depth analysis, participants will enhance their ability to interpret and apply legal frameworks consistently and fairly. This advanced training ensures that asylum officers are well-equipped to handle the most challenging cases with competence and confidence, contributing to the integrity and quality of the asylum process.

The European Asylum Curriculum offers 1 module at Advanced core level, namely:

- Inclusion - advanced
