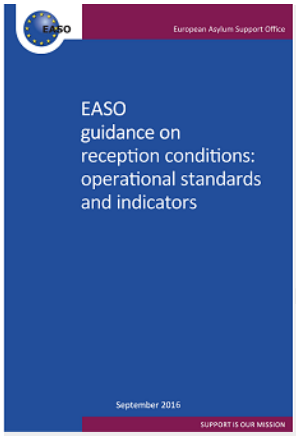
EASO Guidance on reception conditions: operational standards and indicators



September 2016

This version of the *EASO Guidance on reception conditions: operational standards and indicators* has been designed online from the PDF.

Use the contents table on the lefthand side of the screen for easy navigation of the chapters.

The PDF version is available in English here.

Please check the EASO Practical Tool page for other language versions at: https://euaa.europa.eu/practical-tools

The development process of this document follows the established Quality Matrix methodology set up by the European Asylum Support Office (EASO). The document has been drafted by a working group composed of EU Member States' experts, as well as representatives of other relevant stakeholders in the field of reception and fundamental rights, including the European Commission, the European Union Agency for Fundamental Rights (FRA) and the United Nations High Commissioner for Refugees (UNHCR). Moreover, members of the EASO Consultative Forum have been consulted prior to finalisation of the guidance. The EASO Network of Reception Authorities was consulted over the guidance and it was subsequently formally adopted by the EASO Management Board.

It should also be noted that the European Commission's proposal for a recast of the RCD (COM(2016) 465 final) of 13 July 2016 specifically refers to these operational standards and indicators.
