4.13.2. Data on statelessness

4.13.2. Data on statelessness

icon presenting data on statelessness

According to UNHCR's Global Appeal 2022 Update, there are an estimated 483,000 stateless persons in Europe.1042Based on Eurostat data, EU+ countries[xliii] have received approximately 78,500 applications for international protection by stateless persons over the last decade, from 2012 to 2021 *(see Figure 4.22).*

The share of applications by stateless persons in the overall total number increased in EU+ countries from 2012 to 2014, representing approximately 1% to 2.6% of all applications. Since 2015, the trend reversed and the share continued to decline, with stateless persons accounting for 0.4% of all applications in 2021.

The share of positive decisions[xliv] on asylum applications at first instance, or the recognition rate, for stateless persons in EU+ countries is generally high. But there has been a decreasing trend since 2014, with an 86% recognition rate in 2014 compared to 55% in 2021.

In addition, the recognition rate for applicants registered as of 'unknown' nationality was consistently and significantly lower than for applicants registered as 'stateless' from 2012 to 2019, while for 2020 and 2021 it was higher (62% for 'unknown' compared to 56% for 'stateless' in 2020; and 60% compared to 55% in 2021).

Approximately 78,500 applications for international protection were lodged by stateless persons in EU+ countries over the last decade
