Country Guidance: Training

The '**Country Guidance: Training**' has been designed for training purposes. It represents the assessment of the situation in a fictitious country of origin in relation to the applicable international and EU legislation on international protection. Its main aim is to assist practitioners in developing a deeper and more practical understanding of the use of country guidance documents, with no country-specific constraints.

In addition to this electronic publication, the '**Country Guidance: Training** is available in pdf format.

Read more online

The **aim of the country guidance documents** is to assist asylum decision-makers and policy-makers in their daily work and to foster convergence in the assessment of applications for international protection and the type of protection granted in the context of the common European asylum system. Member States have an obligation to take into account the common analysis and guidance notes when examining applications for international protection, without prejudice to their competence to decide on individual applications for international protection.

The EUAA country guidance documents are produced in accordance with Article 11 of the EUAA Regulation (Regulation (EU) 2021/2303). Learn more about the methodology and assessment approach of the common analysis and guidance notes in the 'Country Guidance: explained'.
