

2.6.3. Security incidents

The difficult and dangerous environment for media work and reporting in general has led to significant underreporting of security incidents in Sudan; as such this paragraph should be read in conjunction with section 1.1.4 Security incidents and civilian deaths estimates and section 1.3.2 Communication and media presence.

Throughout the week of late September/early-October 2024, airstrikes and clashes were reported in a number of Sudanese cities, including Gedaref, 'resulting in substantial civilian casualties'. 1009 On 6 November 2024, the RSF stormed the village Qaili Al-Jabal in the Butana neighbourhood in Gedaref state, killing six civilians and causing the displacement of villagers. 1010
