

# Surveys

The information about national caseload, policy and practice is the starting point for each development and update of country guidance.

On this page, you will find the surveys providing a snapshot of the applications received in EU+ countries and the national approaches to the assessment of international protection needs of applicants from Pakistan. The surveys are listed from the most to the least recent.

Since July 2022, Country Guidance Network surveys are launched and processed via the [EUAA Query Portal](#)
