a) Conflict dynamics and main actors

For a general overview on actors in Nigeria, please see section [1.1 Main Actors](#).

Alongside Borno and Yobe states, Adamawa is one of the main bases of Boko Haram and ISWAP in Nigeria. ISWAP has assigned the state's north to its Faruq *wilaya* (province) and has expanded its operations there.[630](#) A July 2024 report by the consulting firm Nextier identified five LGAs in Adamawa (Madagali, Michika, Mubi North, Mubi South and Maiha),[631](#) all located in the state's north,[632](#) as being part of what it called the 'Northeast Belt of Insurgency'.[633](#) In 2025, heightened insurgent activity was seen in Hong LGA.[634](#)

As of July 2025, the situation in Adamawa state was described as being marked by insecurity. [635](#) During the first half of 2025, insurgent activity focused on Hong LGA,[636](#) where individual armed attacks in January[637](#) and February 2025[638](#) were followed by a wave of attacks between April and June 2025 that killed dozens of people,[639](#) including at least 17 within the space of two weeks in April.[640](#) A number of these attacks occurred in villages bordering the Sambisa forest,[641](#) a Boko Haram stronghold.[642](#) Boko Haram/ISWAP repeatedly attacked the villages of Banga[643](#) (a Christian community)[644](#) and Kopre (Kwapre).[645](#) Attacks were carried out by gunmen on motorbikes[646](#) and involved the use of explosives against vigilantes and police.[647](#)

Meanwhile, deadly communal clashes erupted between ethnic Setti of Numan LGA and Kpasham of Demsa LGA (March 2024)[648](#) and between ethnic Bachama and Tsobo in Lamurde LGA (early July 2025).[649](#) Moreover, armed robberies occurred in Yola city,[650](#) in Girei LGA,[651](#) and along

the Numan–Gombe road axis,[652](#) including by youths affiliated with the ‘Shila Boys’ gang.[653](#) The state also saw over a dozen kidnappings between mid-2023 and mid-2025,[654](#) with villagers[655](#) and Catholic clergymen among those targeted.[656](#)

b) Security incidents and impact on the population

In the period from 1 January 2024 to 15 August 2025, ACLED recorded 73 security incidents in Adamawa state that resulted in a total of 123 fatalities. Of these incidents, 26 were coded as battles, 3 as explosion/remote violence, 10 as riots, and 34 as violence against civilians.[657](#)

Figure 3: Evolution of security events coded as battles, explosions/remote violence, riots, and violence against civilians in Adamawa state, 1 January 2024 – 31 August 2025, based on ACLED data.[658](#)

Security incidents were recorded by ACLED in 18 LGAs of the state, with the highest number documented in Hong LGA (16 incidents), followed by Madagali (13) and Fufore and Yola-North LGAs (6 incidents each). No incidents were recorded in three LGAs. According to ACLED, Boko Haram and unidentified armed groups (coded as either ‘Actor1’ or ‘Actor2’) were involved in the majority of incidents coded as violence against civilians.[659](#)

In Hong LGA, insurgent attacks resulted in dozens of fatalities among local residents, including in Banga and Larh villages (between six[660](#) and seven deaths on 15 April 2025[661](#) and at least six more on 11 June 2025[662](#)) and Kopre on 26 April 2025 (between 10[663](#) and 12 deaths among hunters and CJTF members).[664](#) Communal clashes caused at least five fatalities in Numan/Demsa LGA (March 2024)[665](#) and – depending on sources – two,[666](#) three,[667](#) or 10 or more fatalities in Lamurde LGA (early July 2025).[668](#) Kidnappers targeted dozens of people during the reference period.[669](#)

Conflict-related infrastructure damage - The destruction of multiple civilian structures during insurgent attacks in Hong LGA in February,[670](#) mid-April[671](#) and June 2025 was reported.[672](#) In the context of communal tensions and violence, several houses were burnt in Guyuk LGA in March 2025[673](#) and early July 2025, while more than 20 houses were burnt in Lamurde LGA in July 2025.[674](#)

Road security - No information could be found during the reference period.

Displacement, movement and return - As of November 2024, IOM estimated the number of IDPs in Adamawa state at 200 211,[675](#) compared to 196 189 as of September 2024. IOM lists insurgency (72 %) and communal clashes (27 %) as the main reasons for displacement in the state.[676](#) Attacks on five communities in Hong in April 2025 prompted the displacement of most residents.[677](#) As of August 2024, there were 882 021 returnees (IDP returnees and returnees from abroad) in Adamawa state.[678](#)

c) State response in maintaining law and order

The NAF reported some gains during counter-insurgency operations in Adamawa in October 2024, although militant attacks on security forces and civilians continued in the region.[679](#)

Counter-insurgency operations again intensified in early July 2025.⁶⁸⁰ Meanwhile, according to local sources in Hong LGA interviewed by media during the second quarter of 2025, the situation in villages bordering the Sambisa forest was marked by a lack of adequate security presence⁶⁸¹ and responsiveness of security forces.⁶⁸² In the context of efforts to combat crime, coordinated security operations led to the rescue of a number of victims of kidnappings and child trafficking,⁶⁸³ as well as to the arrest of hundreds of individuals suspected of kidnapping, armed robbery, involvement in the Shila Boys gang, and other criminal acts.⁶⁸⁴
