Note

The cases presented in this report are based on the EUAA Case Law Database, which contains summaries of decisions and judgments related to international protection pronounced by national courts of EU+ countries, the Court of Justice of the EU (CJEU) and the European Court of Human Rights (ECtHR).

The database serves as a centralised platform on jurisprudential developments related to asylum, and cases are available in the Latest updates (last ten cases by date of registration), Digest of cases (all registered cases presented chronologically by the date of pronouncement) and the Search page.
